Dear Sir or Madam,

Please grant petition 98P-0151/CP1. We, who are concerned with the welfare and dignity of animals, have waited a long time for the government to prohibit the slaughter of downed animals. We hope that this will lead to better treatment of animals in transport. It is hard to believe that living, feeling beings can be so cruelly mistreated. Perhaps prohibiting the slaughter of non-ambulatory animals will eliminate the overcrowding and callous treatment in transport.

Very truly yours

(Ursula K. Moses)
